

New claim 20 is similar to claim 6, but is narrower than claim 6, including some significant additional limitations. New claims 21-23 depend from claim 20 and add further additional limitations thereto.

**Conclusion**

Applicant respectfully suggests that as presently amended, all of the pending claims are believed to be allowable.

It is applicant's contention that no possible reading of the references, either singly or in any reasonable combination, can be viewed as teaching applicant's claimed invention.

For all of the above mentioned reasons, applicant requests reconsideration and withdrawal of the rejection of record, and allowance of the pending claims.

Applicant respectfully submits that all of the above amendments are fully supported by the original application. Applicant also respectfully submits that the above amendments do not introduce any new matter into the application.
